I. **COURSE DESCRIPTION:** Students enrolled in IS 330 will actively read, discuss, and write about a wide variety of books, materials, and resources suitable for children. Students will also develop criteria for selecting age-appropriate books and materials that encourage reading in the classroom as well as during leisure time.

II. **VALUE PROPOSITION/COURSE GOALS:** What this course has to offer you is not only book knowledge and appreciation of children's literature/materials but the opportunity to gather the tools that will enable you to be adept at finding the resources that the young people in your life need and crave.

III. **STUDENT LEARNING OUTCOMES:**

1) Evaluate books and related materials based on a series of appropriate guidelines.
2) Demonstrate knowledge of and the ability to use selection aids.
3) Identify and discuss the reading, listening, and viewing characteristics as well as the diverse needs and interests of children at varying ages of maturity.
4) Demonstrate a familiarity with a wide range of print, audio-visual, and multi-media materials.
5) Recognize the major characteristics of different literary genres in books for children.
6) Analyze the variety of literary qualities found in books for children.
7) Identify current and historical trends and issues pertinent to children’s literature.

Student responsibilities

1. **Read and evaluate** selected books and materials. Evaluations will be written in formats outlined by the instructor. All reading responses should be typed and submitted electronically via Blackboard. Responses must be submitted as a single file.

2. You must complete the assigned readings **before** you listen to the lesson.

3. **Check your e-mail and Blackboard regularly.** The instructor will periodically send test scores, solicit student input, and make clarifications via e-mail.

4. Complete **two examinations**. The exams will consist of a mixture of short answer questions and brief essays. Materials from the exam will come exclusively from the required readings and those concepts covered during lectures/class discussions.

5. Prepare short **critical analysis papers** (based on the critical evaluation and application of Lukens criteria applied to assigned class novels).

6. **Participate** in class through the discussion board on Blackboard or class blogs per the instructor’s direction.

7. **Attendance** is required. Students are required to listen to every lesson via Blackboard Collaborate.

**IV. LEARNING ENVIRONMENT:** Because this class is online only, we must work hard to communicate and get to know one another. The technologies that will help us accomplish this are class blogs, blackboard discussion boards and email. There will be opportunities to know classmates in smaller groups, create your own course content in the form of a video project, as well as begin bookmarking children’s literature websites in a program called Delicious. Though we won’t be face-to-face, I am committed to finding ways to know you and to give you the opportunity to exchange ideas and information with your classmates.

**V. TEXTS/MATERIALS/RESOURCES FOR THE COURSE:**
Textbooks
*The 9th edition is recommended.

Required Readings (Listed in the order they will be read)
White, E.B. *Charlotte’s Web*.
Ryan, Pam Munoz. *Esperanza Rising*.
Wiles, Deborah. *Each Little Bird That Sings*.
Gantos, Jack. *Joey Pigza Swallowed the Key*.
Lowry, Lois. *Number the Stars*.
Bridges, Ruby. *Through my Eyes*.

Reserve Materials
The instructor has placed picture book sets on reserve in Hodges Library. Students are STRONGLY encouraged to read these books before or shortly after the designated class. The picture books are listed as part of the course outline. These books may also be used for reading responses if necessary.

VI. INFORMATION LITERACY/TECHNOLOGICAL RESOURCES: You will want to be very familiar with the Blackboard website including the use of class blogs, discussion boards, SafeAssign for paper submissions, and Blackboard Collaborate. This is my primary connection to you and vice versa so this is a “must!” Here are links to online learning tutorials:  https://oit.utk.edu/instructional/tools/online/Pages/online-learning.aspx and https://oit.utk.edu/instructional/tools/online/Pages/How-To.aspx In addition, we will create a short video project this semester. You are welcome to use your own technologies but if you would rather not, please visit The Studio at Hodges Library. They can offer quick lessons and technology that you can check out. This assignment is due toward the end of the semester but don’t wait until the last minute to complete it.
Course Delivery

This section of IS 330 is being offered in an online, asynchronous environment. What does that mean for the student? The student must have a computer with the proper system requirements to access Blackboard and use Blackboard Collaborate. This class does not have a set meeting time or place. The instructor will record lessons and post course content on Wednesdays. Students will listen to the lessons via their computers during that week. The instructor will record one lesson per week; each lesson will be between 90 to 120 minutes with time allocated for discussion board activities. Students are reminded that this section of 330 is not a Distance Education class; students are expected to have access to the UT campus in order to complete the requirements for this course. There are no set office hours for the instructor or the graduate teaching assistant (GTA). Questions and concerns should be asked via email. Questions about the course should be directed to the instructor. The GTA will answer all technical questions about Blackboard and Collaborate. If a student needs to meet face to face with the instructor or the GTA, the student can arrange that meeting by contacting the instructor or GTA. Please refer to section of the syllabus entitled "Suggestions for Success in an Asynchronous Online Class" for guidelines; that section is on page 4 of this document.

VII. COURSE REQUIREMENTS, ASSESSMENT AND EVALUATION METHODS:

Student evaluation is based on performance for each of the responsibilities listed in the course syllabus. The final grade is based on the following:

1. First Exam 18% or 180 points total
2. Second Exam 18% or 180 points total
3. Lukens Response Papers (5 x 60 pts. ea.) 30% or 300 points total
4. Reading/Viewing Responses (7 x 21 pts ea.) 15% or 150 points total
5. Video Project ((Book Talk) 9% or 90 points total
6. Participation (Blogs/Threads)(5 X14 pts ea) 7% or 70 points total
7. Delicious Bookmarking 3% or 30 points total

Grading Scale
A = 96-100
A-=93-95
B+=89-92
B= 86-88
B-=83-85
C+=79-82
C= 75-78
C-=70-74
D= 66-69
F= 65 and below

100% or 1,000 points

VIII. HOW TO BE SUCCESSFUL IN THIS CLASS:
1) Be self-reliant. In this type of class, a larger portion of the burden for success falls on the individual student. In a synchronous class, a student would have the opportunity to solicit immediate feedback from the instructor by asking questions. Likewise, the instructor can better determine comprehension in a face-to-face class. In this class, the student must assume more of this responsibility. Students should use email or the Discussion Board to ask questions.

2) Stay organized. Unlike the traditional face-to-face class, this course does not have a set time to meet. The student may "attend" class at 3:00 p.m. or 3:00 a.m. The student may listen to the lessons Wednesday morning or Wednesday night. The key to success in the class is to remain organized. Due dates for assignments should help the student with preparation. Students are encouraged to set up a schedule for listening to lessons, working on assignments, and reading the books.

3) Reduce distractions. The instructor will cover large amounts of material during each lesson; the student is responsible for that material. Students are encouraged to listen carefully and thoughtfully to the recordings and to take detailed notes. If the student is chatting on Facebook, streaming videos, listening to music, shopping online, or texting with friends, then he/she is likely to miss important course content.

4) Interact with your classmates and instructor in your class blog or discussion board. Even though the instructor will deliver course content in an online, asynchronous environment, students are required to use the forums on the discussion board of Blackboard or class blogs to interact with one another.

5) Avoid procrastination. If a student falls behind with listening to lessons or completing coursework, that student will likely struggle to finish assignments. This statement applies even more to the online environment where the student assumes more responsibilities. Remember that late work will likely receive a penalty.

IX. COURSE FEEDBACK: The very best way to communicate with me should you have a question about the course content is through email at lmeidl@utk.edu. Other questions should be directed through my GTA, dmehta2@utk.edu. Please remember that UT policy states that there is a 48-hour turnaround for email. In most cases, I or my GTA will reply sooner than that. In addition, we will be using class blogs and discussion boards as a form of communication. Oftentimes, your classmates will have an answer to your question so take advantage of these methods as well.

X. UNIVERSITY POLICIES: Policy on Academic Integrity: All work submitted by the student must be the student’s. The University of Tennessee operates with a strict student code of honor regarding academic integrity. An observed act of academic cheating or plagiarism will result in failure for the course. Complete information regarding this topic can be found at catalog.utk.edu under Academic Policies and Procedures.

XI. STUDENTS WITH DISABILITIES POLICY: If you need adaptations or accommodations because of a documented disability or if you have emergency information to share, please contact the Office of Disability Services at 2227 Dunford Hall at 865-974-6087. This will ensure that you are properly registered for services. It is also important to meet with the instructor to discuss your situation.

XIII. IMPORTANT NOTE: Remember that when communicating in blogs, discussion threads, or any other forum in cyberspace, the highest form of respect is expected and required. The health of any class hinges on all members respecting one another. Please take a few minutes to read this short page on “netiquette” from the University of Wisconsin, Madison:

http://online.uwc.edu/technology/onletiquette.asp

XIV. THE INSTRUCTOR RESERVES THE RIGHT TO REVISE, ALTER AND/OR AMEND THIS SYLLABUS, AS NECESSARY. STUDENTS WILL BE NOTIFIED IN WRITING AND/OR BY EMAIL OF ANY SUCH REVISIONS, ALTERATIONS AND/OR AMENDMENTS.
