

# The University of Tennessee Emergency 911 Acknowledgement Statement

By accepting Voice over Internet Protocol (VoIP) service from The University of Tennessee, I acknowledge and understand the following:

- VoIP 911 service may not work during a power outage, or when the network connection fails or becomes overloaded.
- The University has provided the Public Safety Answering Point (PSAP), which dispatches personnel to assist a 911 caller, with the physical location of my VoIP phone. I will not move this phone without prior notification to UT Telephone Services, to ensure that my VoIP 911 service functions properly.
